

Post-Operative Advice for the Patient Who Has Had Sedation

IMPORTANT

Following your treatment under sedation you will be discharged home under the care of your escort.

You should rest at home and reduce your activity for the next 24 hours.

You are likely to feel drowsy and forgetful for the rest of the day as the effect of the sedation takes time to wear off.

Please adhere strictly to the following

You MUST NOT

- Drive or operate any machinery for 24 hours following sedation.
- Drink alcohol.
- Return to work or make any important decisions for 24 hours after sedation.

You should take any medicines you have been prescribed at the usual times.

If you have any concerns or problems please do not hesitate to call us on Tel: 029 50 060 or 086 812 4357 (Outside of Surgery Opening Hours).

You MUST have someone to drive you home and cannot drive for 24 hours following the procedure. The effect of the sedation can take up to 24 hours to wear off.

It is essential that you follow the post-operative instructions carefully after having intravenous sedation.
